Documentary that exposes the period of the guerrilla fight at African lands, an unknown page of Ernesto Guevara's life.

(DVD. Spanish, English, French, Italian, Portuguese)

## Mathematic Collection

INTERACTIVE MULTIMEDIA ABOUT MATHEMATICS THAT COVERS THE CONTENTS OF MIDDLE AND SUPERIOR EDUCATION LEVELS. THEY INCLUDE EXERCISES AND SOLVED PROBLEMS.

## Descriptive and nonparametric statistics

It contains methodological indications, examples, exercises and diagnostic exams for statistical knowledge. it includes tutorials and scientific calculator.

(CD-ROM. Spanish)

15

## Basic of mathematics

It makes easy the learning process and systematization of the fundamental contents of Mathematics: functions, equations, geometry and trigonometry.

(CD-ROM. Spanish)

## Differential and integral calculus

Teaching and learning of calculus: Limit and continuity, derivatives, integrals and numerical methods.

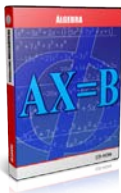

(CD-ROM. Spanish)

## Probabilities

Markov's theory of the Probabilities, aleatory variables and chains. It includes problems about motivation, theoretic and simulative concepts.

(CD-ROM. Spanish)

## Algebra

Sets of relations and functions, polynomials, algebraic structures, matrixes, systems of linear equations, determinants, Grafos's Theory, vectorial spaces and linear applications.

(CD-ROM. Spanish)

## Geometry

It contains over 120 solved problems. It reaches to the complexity level of The worldwide Olympics.

(CD-ROM. Spanish)

## Mathematic Modeling

Educational Multimedia, designed for students and specialists who need to deepen their knowledge in mathematic modeling. With easy terms to access to the different lessons, includes options to get the solution of the exercises and the evaluation of their answers.

(CD-ROM Spanish)

## Complete mathematics

Interactive course with seven educational modules for high school and university level, which incorporates fundamental theoretical concepts, dictionary terms, interactive exercises, among other things.

(2CD-ROM. Español)

## Walk through the Universe of Numbers

Multimedia that shows the universe of numbers in various ways and which are not intended to show how you do the math with numbers, but dissimilar curiosities and information. (DVD. Spanish)

## Collection Chemistry

INTERACTIVE MULTIMEDIA OF CHEMISTRY. IT MAKES THE LEARNING PROCESS EASIER USING DIDACTIC MEANS LIKE GAMES, EXERCISES, SOLVED PROBLEMS AND CHEMICAL LABORATORIES.

### General chemistry. Integrative tasks

Substances, mixtures, chemical reaction by chemical method, chemical processes by electric methods and chemical laboratories. (CD-ROM. Spanish)

### Steriometric calculations

Specialized in the study of steriometric calculations: Steriometric of compounds and reactions and the table of atomic masses. (CD-ROM. Spanish)

### Organic chemistry

Educational product that offer theoretical information, characteristics of chemical substances, a detailed periodic table and the standards for protection to carry out of experiments. (CD-ROM. Spanish)

## Learn Chemistry playing

It makes easy the study of the periodic table through didactic games, like: Chemical stair, chemical periodicity, chemical solitaire and chemical old maid. (CD-ROM. Spanish and Portuguese)

## Quiminó/ Chemino

Didactic tool very useful to the learning of the nomenclature of the chemical compounds. It uses traditional "Domino's game" with 90 digital domino counter to obtain a great variety of combinations. It includes the game in pasteboard. (CD-ROM. Spanish)

## Physics Collection

INTERACTIVE MULTIMEDIA OF PHYSICS FOR MIDDLE AND SUPERIOR TEACHING LEVELS. IT INCLUDES EXERCISES, SOLVED PROBLEMS, LABORATORIES AND SIMULATORS.

### Physic classical mechanics

Physics and its laws, dynamics, work and energy, rotation of a rigid body, gravitation, oscillations and mechanical waves and mechanics of fluids.

(CD-ROM. Spanish)

### Physics and music

Comprehensive study about the physique mathematical and technological basics of music.

(DVD ROM. Spanish)

### International System of Units

Valuable pedagogic tool, with didactic motivating approach, for the learning of International System of Units.

(CD-ROM. Spanish)

### Optical Physic

Geometric optics, undulatory optics, quantum optics, instrumentation based in light, and other themes.

(CD-ROM. Spanish)

### Electricity and magnetism

Interaction field and force, electrostatics, direct current, magnetic field, electromagnetic induction and alternating current.

(CD-ROM. Spanish)

## Spanish Collection

INTERACTIVE COURSES DESIGNED TO IMPROVE THE COMMAND OF THE SPANISH LANGUAGE. IT COVERS MIDDLE AND SUPERIOR EDUCATION LEVELS.

18

### Composition and grammar of the Spanish Language I

Courses of writing and grammatical structures of the Spanish language: Oral and written communication, paragraph, verbal phrases, written text, nouns and adjectives, synonyms and antonyms.

(CD-ROM. Spanish)

### The text as base of communication

Guide for composition of texts that makes easy a better communication in Spanish Language: The text as key category for the communication.

(CD-ROM. Spanish)

### Learn Spanish

Practical guide for self-learning of the Spanish language and its pronunciation.

(DVD+CD. Spanish, English, French, Italian, Portuguese)

### Composition and grammar of the Spanish Language II

It allows to deepen into the fundamental characteristics of textuality and to increase the knowledge of the grammatical structures. Nominal syntagma subject, verbal syntagma predicate and the verbal sentence.

(CD-ROM. Spanish)

### Spanish: Exercises and didactic games

Valuable educational tool that is use as guide for writings of texts, and the correct use of synonyms, proper adjectives, accentuation and of some particularities of the Spanish language. It includes five didactic games.

(CD-ROM. Spanish)

## Computer science collection

COURSES DESIGNED TO MAKE EASIER THE LEARNING PROCESS AT THE FIELD OF TECHNOLOGIES OF THE INFORMATION AND COMMUNICATIONS.

## Practical basic courses: Web development

It provides the necessary tools to develop, to design and to administrate Web sites.

(CD-ROM. Spanish )

## Practical basic courses: Office 2007

It contributes to learn the tools of Microsoft Office 2007 package.

(CD-ROM. Spanish)

## Cyber-Prometheus, The digital crash

An approach to the deep crisis of moral values and of the meaning of the human evolution under the impact of the present-day revolution of sciences and digital technologies.

(CD-ROM. Spanish)

## Practical basic courses: Reparation of sources

Basics of functioning, fundamental components, common faults. It proposes an original method of low voltage reparation of the commuted sources. Directed to technicians, professionals of electronics and to all those people interested in the theme.

(DVD ROM. Spanish, English, French, Italian, Portuguese )

## Computer Vision

Work for consultation and study of matters relating to Digital Image Processing (PDI). Give some basics using tools that help a better understanding of the essence of these principles.

(Spanish)

E-BOOK

## Logistics: An entrepreneurial necessity

Interactive system that allows to learn logistics easy and fast through exercises, presentations, images, videos, graphics and a general system of evaluation. You will be able to master the key elements of the logistics organization in a company and to Evaluate the logistics level of an organization.

(CD-ROM Spanish).

## Learn how to play chess

Practical guide to learn how to play chess.

(CD-ROM Spanish )

## Nature Collection

20

### The exclusive birds

Three documentaries about the Cuban birds and its conservation: "The exclusive birds of Cuba", "The waterfowls" and "In Search Of the lost birds".

(DVD. Spanish, English, French, Italian, Portuguese)

Instructive multimedia that will allow you to know more about the bees' world and to obtain information on matters like reproduction and nutrition of this species. It includes a glossary of terms, gallery of images and interactive questionnaires.

(CD-ROM. Spanish)

## Guanahacabibes

Documentary series on Guanahacabibes's peninsula, world Reserve of the Biosphere, located in Pinar del Rio, Cuba. (DVD. Spanish, English, French, Italian, Portuguese)

## Summary of Cuban and The Caribbean Geology

A literature that compile information on the different specialties of the sciences of the Earth in Cuba and The Caribbean. It approaches themes of general geology, stratigraphy, paleontology, tectonics of plate paleography, biogeography, geological engineering, hydrogeology, environmental geology and geological dangers.

(DVD-ROM. Spanish)

## Environmental economy

It focuses essentially toward the economics aspects related to the environmental decisions of a company, a territory or a similar organization, with marked emphasis in the aspects concerning the micro-economy.

(CD-ROM. Spanish)

## Chemical Hydrogeology. The Karst's Hydrochemistry

It contains related information about Chemical Hydrogeology and its applications in the characterization of groundwater and the karstic layer. Includes books, scientific articles and other materials on themes like geomorphology and the karsts' hydrology, the physical-chemical basics and the hydro geochemical modelation, among others.

(DVD-ROM. Spanish)

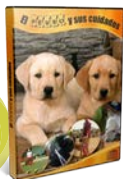

## Photovoltaics

Multimedia devoted to the need to increase themes as energetic culture and the spectrum of solar radiation, the process of converting solar energy into electrical energy through the photovoltaic phenomenon, the influence of the orientation of the modules in the generation of electricity, among others.

(DVD. Spanish)

## Animal Collection

22

### The dog and its cares

Multimedia that contain varied information on the dogs' life and its cares.  
(CD-ROM. Spanish)
